

## Bird Food Netting

Standard Program

- ✓ Extruded netting used to package any type of winter bird food
- ✓ Made of PE or PLA material with our trademark **bio-netting**<sup>®</sup>
- ✓ Available in a variety of widths, mesh sizes and colors
- ✓ Available as rolls or pre-made, sealed net bags
- ✓ In addition to our netting, we also provide trays made of PS or groundwood pulp, packaging film made of BOPP, PE or PVC, as well as wine-glass labels to identify our customer's products
- ✓ Bags and PE bags as food dispensers are manufactured according to specific customer requirements
